# GLOSSARY

**TATYANA IVANKOVA HOPKINS:** The Fetish Whisperer of the United States and protagonist of the story. Amid her intentionally submissive demeanor expected by her billionaire, oil right aligned family, this Machiavellian, Ukrainian mail-order-bride has a fondness of manipulating the masses to her ruthless will. She therefore patiently awaits for the right moment to destroy her husbands and marital relatives in order to extract their financial assets, one therapy session at a time.

**DONOR WASHINGTON (FORMERLY KARL DRICKLEDINGLER):** CEO of the American Libertarian Oil and Pharmaceutical Corporation. As the highest ranking Republican Donor and one of the richest men in America, this pro-Ayn Rand (but secretly fascist) oil/drug baron has an iron grip on the Party of Lincoln and is basically the de-facto leader of the U. S. Originally known as Karl Drickledingler, he inherited his company and fortune after the untimely death of his pro-personality-cult billionaire father in 1968. Karl subsequently co-created a 50 year "grand plan" with KGB operatives to overthrow the United States Government and replace it with a "Libertarian" dictatorship that he would actually control behind the scenes. After years of being addicted to every injectable drug known to man mixed with with melted gold bars ripped off from the U. S Treasury, his head shrunk to the size of a Mr. Potato Head toy in 1980. This accident required Karl to don the life support helmet with the facial features of the late first President of the United States, thus being known henceforth as "Donor Washington".

**U. S. REPRESENTATIVE VIRGINIA FOX (R-NC):** A Republican Congresswoman who has represented North Carolina's 5th Congressional District (nestled in that state's Blue Ridge Mountains) since 2005. Claiming she "was tea party before the tea party started", she has appeared to live up to that mantra quite frequently during her tenure in the U. S. House of Representatives. As referenced in "Issue 1", she caught the attention of then-House-colleague and future Vice President Mike Pence when she became one of a small number of members of congress at the time to not vote in favor of a \$50 million aid package for hurricane Katrina. The following is the link to the referenced article from POLITICO.com utilized to describe Representative Fox, titled "Meet the congresswoman poised to tear up Obama's education legacy", by Kimberly Hefling: <https://politico.com/story/2016/12/virginia-foxx-obama-education-legacy-232084>.

**DONORCON:** an annual retreat held by Donor Washington at his Palm Springs Estate every January. It is there where prospective far right Donoring candidates attempt to sell themselves to the Donor Brothers to do their bidding.

**ARCHIBALD HORNIBUS HOPKINS:** The only son and heir apparent to Donor Washington and mail-order-husband to Tatyana Ivankova Hopkins. Donor Washington arranged for him to be cloned into an infant from the former's DNA in 1985. He also attended Duke University in Durham, North Carolina thus graduating in with a Bachelors Degree in 2007. It was there he befriended fellow students Richard Spencer and Stephen Miller, who would go on to become prominent White Supremacists and advocates of President Trump. In 2015, He too suffered from the side effect of addiction to injectables mixed with melted gold bars like his father and uncle before him. Due to technological advancements, however, he was able to utilize a life-supporting cybernetic face transplant bolted on his shriveled head by red night vision goggles in lieu of a bulky helmet. Upon this accident, Donor Washington forced his nearly-braindead son to accompany him to attend a series of debauched parties with eligible women held for his heir apparent in Ukraine. Despite being more into quick hookups than long-term relationships, Archibald had no choice but to choose a Ukrainian woman to marry and produce heirs to spare. During the last of these drunken parties held in Kiev, he chose Tatyana to be his bride after witnessing her verbally degrade his sinister father into silence, a feat no woman had ever pulled off before.

**DONOR FRANKLIN (FORMERLY HANS DRICKLEDINGLER):** The younger, but more self indulging brother of Donor Washington. As with his elder sibling, he suffered similar side effects of addiction to injectables combined with melted gold bars thus requiring a similar life support helmet in perpetuity. As the facial features of late Founding Father, Benjamin Franklin are featured on his helmet, he is known as "Donor Franklin". While he helps Donor Washington run the American Libertarian Oil and Pharmaceutical Corporation and the affairs of the United States Government behind the scenes, the youngest of the two Donor Brothers is quite promiscuous and spends most of his time fornicating with his massive harem contained in his \$600 million penthouse that overlooks Central Park in New York.

**DONORLING:** a minion of Donor Washington that, upon impressing the Donor Brothers at their annual DonorCON conference in Palm Springs, is bought a political office of Donor Washington's choosing in exchange for placing "Donor over Country" and upholding the "Three Libertarian Ideals", even if doing so requires illegal and corrupt methods.

**THE "THREE LIBERTARIAN" IDEALS:** They are as follows:

1. Climate change does not exist.
2. Abortion is wrong.
3. Anyone born into the bottom 99% of income earners in America is scum and inferior to the "divine ruling class".
